Planetary Gear Reducers & Drive Assemblies

Oerlikon Fairfield is a manufacturer of engineered gear and drive solutions. Their Torque-Hub® planetary drive products are sold worldwide to leading off-highway vehicle and industrial equipment manufacturers. Torque Hub's wide catalogue of planetary gear boxes includes wheel drives, shaft output drives, spindle output drives, and complimentary products including two-speed drives, right angle drives, compact drives, and input adapters. Their gear boxes cover a maximum torque from 20,000 in-lbs. to 3.5M in-lbs.

Oerlikon Fairfield is the global leader in planetary final drives and brings innovative new solutions to market including electric drive options, integrated hydraulic motor packages, and integral service brake options.

While a global company, Fairfield products are still designed and built in the USA.

"Kraft Fluid Systems has been a Torque Hub distributor and service center for more than 40 years. We stock over \$1M worth of final drives and service parts for the Torque Hub product line." – Scott Durand, VP Sales and Marketing

Warranty and Usage

Torque Hub warranty is 12 months from the date product is put into service or 18 months from the date the product ships from the factory. With the help of Fairfield, we are able to review each application submitted to us and work with our customers to develop a duty cycle for how the vehicle will be utilized. Fairfield then provides customers with a theoretical life prediction for the unit. This helps our customers better understand the gearboxes selected will meet and exceed their unique life requirements.

Why Buy Torque Hub from Kraft

Kraft has been a Torque Hub distributor for over 40 years. Our expert field sales and engineering staff are trained to analyze all applications and select the correct Torque Hub planetary drive that offers the best performance and value for the application.

Clients can expect to receive well-built products that have been put through rigorous testing in-house and in the field to prove out its drive capabilities.

We are an authorized service center for Oerlikon Fairfield Torque Hub and stock over \$1M of complete assemblies and service parts. Our service technicians are factory trained and certified.
