## Custom Manifolds and Combination Valves

THE MOBILE HYDRAULIC EXPERTS

SEPTEMBER 2018

### Unlimited Combinations and Many Custom Options with HydraForce Manifolds.

Custom manifolds and combination valves can add significant benefits to a hydraulic system. When properly applied they can simplify plumbing, reduce leak points and reduce installation space required. Other benefits include the ability to install diagnostic ports and use custom labeling to help with trouble shooting and aid in proper installation.

Using quality components is an important part of any system. Kraft Fluid Systems inventories, sells, and services HydraForce cartridges in our valve assemblies. They produce world class cartridges and have a best in class 5-year warranty on their product.

***"HydraForce offers best in class cartridges and valve assemblies to meet virtually any custom valving need. We've represented HydraForce for more than 30 years and consider them one of our best partners."***  
***-Paul Skrant, Application Engineer***

### Why Purchase Combination and Custom Valve Manifolds from Kraft?

By choosing Kraft as your partner for systems integration we apply our team's vast experience to provide the best circuit design and system layout for your project. With our team of experts and top-quality components we provide the best solution for your hydraulic system.

### Full Line Stocking Distributor

Kraft stocks over \$500K of HydraForce inventory and has sold more than 75,000 custom manifold systems during our 30-year partnership. Our Sales and Applications Team have the right experience, training, and hands-on skill to make your next OEM valve project a success.

### Product Warranty

HydraForce offers a new product warranty of 5 years from the date of shipment – best in the industry.
